

## 5<sup>th</sup> TMN mini-symposium

### Exploring Neurosciences: New challenges and innovative approaches

Save the date!

Wednesday, 2nd October 2024 (morning)

9:00-9:35 am

Luc Dupuis

CRBS, University of Strasbourg

*Early non motor signs as a window into Amyotrophic Lateral Sclerosis pathophysiology*

9:35-10:10 am

Karine Merienne

LNCA, University of Strasbourg

*Epigenetic dysregulation in Huntington's disease*

10:10-10:45 am

Pierre-Eric Lutz

INCI, University of Strasbourg

*Sex differences in epigenetic mechanisms of chronic opioid action*

**Coffee break**

11:05-11:40 am

Angelina Angelova

Institut Galien, University of Paris-Saclay

*Multicomponent lipid nanoparticles for neuroprotection and development of brain-targeted nanomedicines*

11:40 am-12:15 pm

Philippe Isope

INCI, University of Strasbourg

*Synaptic connectivity maps and temporal processing in the cerebellar cortex*

*Followed by a presentation of NeuroStra*
