

# NeuroStra's Scientific Day 2024

December 12 | Forum Médecine | Strasbourg

## MORNING

9h00 Introduction  
NeuroStra review

---

9h30 Non-coding RNAs and  
epigenetic gene-regulation in  
neurodegenerative diseases  
**André FISCHER** | German Center  
for Neurodegenerative Diseases  
(DZNE), Göttingen

---

10h20 *Break + Poster session*

---

11h00 Chronodisruption of female  
reproductive rhythms  
**Thibault BAHOUAGNE** | INCI, Team  
Regulation and disruption of  
neuroendocrine rhythms

---

11h20 Blitz session 1

---

12h00 *Lunch + Poster session*

### Meet the PUI-A

The **University Pole of Innovation** (PUI-A)  
will be present to discuss their activities in  
detecting and promoting innovative  
projects.

## AFTERNOON

14h00 Blitz session 2

---

14h50 Doctoneuro review

---

15h05 The MACDO project  
**Clémentine FILLINGER** | INCI, Team Regulation and  
disruption of neuroendocrine rhythms

---

15h25 Genetics of Amyotrophic lateral sclerosis and Fronto-  
temporal dementia: from basic biology to therapeutics  
**Salim MEGAT** | STEP, Team SLA-DFT

---

15h45 *Break + Poster session*

---

16h15 Interdisciplinary project | Design of copper-selective  
peptide shuttles to prevent toxicity of the Cu-amyloid-  
 $\beta$  complex linked to Alzheimer's disease  
**Nicolas VITALE** | INCI, Team Intracellular membrane  
trafficking in the nervous and neuroendocrine systems  
**Peter FALLER** | Institut de Chimie, Strasbourg

---

16h35 IGBMC talk: Genetics of neurodevelopmental  
disorders  
**Amélie PITON** | IGBMC, Team Genetics and pathophysiology  
of neurodevelopmental disorders

---

17h05 Contests awards and Conclusion
