

SYMPOSIUM

The Claustrum : from local network to Cognitive Function A new sight on an enigmatic brain region

The first french symposium about Claustrum research!

You can come to one presentation or the whole afternoon after **FREE registration!**

- 14h** ● **A Cholinergic-dependent Slow Wave Oscillation in the Claustrum in vitro**
Ambre Ledoux - *NeuroPsi, Paris, France*
- 14h45** ● **A role for the Claustrum in sleep-dependent memory consolidation**
Coline Portet - *LNCA, Strasbourg, France*
- 15h30** ● **Global/local control of sleep oscillations by thalamic nuclei in mice**
Audrey Hay - *CRNL, Lyon, France*
- 16h15** ● Coffee Break ☕
- 17h** ● **Does the non human primate Claustrum fulfill a hub function allowing orchestration of interareal information processing?**
Julien Vezoly and Henry Kennedy - *SBRI, Lyon, France*
- 17h45** ● **State dependent constraints on claustrrocortical communication**
Jesse Jackson - *Departement of physiology, Edmonton, Alberta, Canada*
- 18h30** ● **Round Table**

Free Registration here!

November 8th 2023 - INCI Seminar room
8 All. du Général Rouvillois, 67000 Strasbourg
